▶ What would you rather do?

A. Pay for a storage unit away from your home and get nothing in return for your fuel costs and inconvenience.

OR

B. Rent a building in the size, color, and style you choose, delivered to your own backyard and own that building after renting for only 36 months.

All that is required to enroll in our rent-to-own program is a down payment of three months' rent and the ability to make 33 monthly payments thereafter. Since this is a rental program, and not a loan, no credit is required. You simply rent on a month to month basis for three years.

You may cancel the rental contract at any time simply by calling us and requesting that we pick up the building at no further cost to you. You may also purchase the building at any point by simply paying 60% of the remaining balance on your 36 month lease.

Make the smart choice and rent to own!
