

Sun Shade

Residential/Commercial Solar Protection

Originally manufactured as a garden shade for plants, the Henry Building Systems Sun Shade has multiple uses.

It can be used to cover your patio, creating a beautiful outdoor living area.

Place your grill and your patio tables under it for an outdoor kitchen facility.

Keep debris out of your above ground pool and keep the water cooler by blocking out the sun.

No matter how you use the HBS Sun Shade, it will enhance the beauty of your home and yard in the great outdoors.
