

Dog House

Luxury Full Flow Air Dog Houses

Designed for medium to large breeds. These premium dog houses have insulation standard on all models. Full Flow ventilation keeps dogs 12-15 degrees cooler than outside temperature.

How does Full Flow work?

- Summer morning door/wall open with 40 to 80 degrees temperature (morning)
- Summer 2 door/wall open 70-100 plus degrees wall open (afternoon)
- Winter (Northern States) both door/walls closed. South West USA follow summer instructions.
- Winter – Consider Self Sealing Southwest Product Group Doggy Doors (30 year warranty)
- Southwest Product Group Optional Air Conditioner and Southwest Product Group Comfort Heater. Thermostat controlled. Ideal for areas with extreme climate conditions.

Available options:

Southwest Product Group Doggy Doors

Southwest Product Group Air Conditioner and Henry Building Systems Comfort Heater
