All in one: live, store, entertain, play!

Henry Building Systems introduces its all-inclusive superior residential building. Utilizing our signature clear span truss system, this unit utilizes space for a 5,000 Sq. foot enclosed shop space, a deluxe 3 bedroom apartment, a three stall open lean to, and an abundance of storage options.

Options

- Multiple Floor Plans
- Versatile Room Sizes
- Exposed or Covered Beams
- Front Deck
- Wainscoting
- Window Styles
- Divided or shared storage
- Laundry facilities
- Entryway storage
- Siding and Trim colors
- Multiple locations for either interior or exterior stairs

Living

Experience the versatility of Henry Building Systems design.

The most popular floor plan has two spacious bedrooms, each with a large closet, and an extra room for optional office or guest room. The open kitchen has an abundance of cupboard space, and a large extended counter/bar for casual or formal dining.

Trapezoidal windows open up the space on each end and add exterior charm, without compromising heating/cooling efficiency.

The exterior deck is an excellent way to bring the interior charm outside. Large enough for tables and seating, it is a great must have for enjoying beautiful Midwest weather!

Exceptional in beauty, structural red-steel beams can be exposed or enclosed in wood. Either style adds sophisticated charm to your living space.

Energy Efficient

Traditional energy systems are tacky and take up too much space. The heating/cooling system is built into the wall on the bottom level, taking up less 2 square feet!

Shop

The ultimate universal space. Over 1,500 square feet of open, heated space as your dream playroom. Perfect for an entertainment area, use as a heated shop or garage. With door and entry options, this space will become your pride and joy!

Lean-to

Most impressive of all is the 1,000 square feet located in the back of Willow Lodge. This space can be used for vehicles, toys, or storage of all sorts. Open, closed, walk doors, garage doors, insulated, heated, the options are endless!

Apartment Layout

Upon entering, by stairs located either on the exterior or interior you are quickly welcomed by an open entry way. There is enough room for everyone to hustle in, and still have space for putting everything away.

Bedrooms: This layout offers three spacious rooms, enough for fitting the whole family! Because of beautiful trapezoidal windows natural light floods two of the bedrooms. Each has their own spacious closet, and ample outlets.

Kitchen and dining: Popular open kitchen plan allows for intimate dining or entertaining. With ample cabinet and counterpace.

Living: Open layout living is trendy and extremely versatile. Over 1,500 square feet of space

Living

Take advantage of the open floor plan. With open sight lines you can keep an eye on everyone, while giving them enough space. There is ample room to design around your needs whether that's room to play, entertain, or relax.

Kitchen

This kitchen layout is perfect for cooking for one or many. With state-of-the-art appliances, ample counter space, and various cabinets, there is space for cooking, serving, and storing.

Storage

Multiple sizes and locations for all your storage needs.. Small storage includes ample kitchen and bathroom cabinets as well as spacious closets in each of the bedrooms. The lean-to, and shop spaces can be divided or open allowing for organized storage of any size!

This space reserved for optional exteriors. Sutcko, Northwoods, Timberline
