

Henry Building Systems Price Guarantee

All building manufacturers claim to have the best price and the highest quality products. At Henry Building Systems we take this promise one giant leap farther. Through a network of HBS authorized dealers we offer unmatched service and quality products that are often recommended by major engineering firms. And now an industry first! A price guarantee that makes all competitors sit up and listen. It's really a simple formula: The Best Service + The Highest Quality + Guaranteed Price = HBS.

In the event that a customer finds a better price on an equal product and service, Henry Building Systems, Inc. guarantees to either match the price or refund the deposit without penalty. The claim must be submitted within 10 days of the customer's purchase date. The claim must be on a *pre-engineered steel or post frame building and must include the original quote form with all the specific features - engineering, specifications, shipping and warranties. All claims must be made previous to any engineering or order processing work being performed by HBS.

As one of the fastest growing building system companies in the nation, HBS takes its responsibilities to its customers seriously. Here at HBS we believe that this price guarantee is one of the big reasons Henry Building Systems is an industry leader!

*Pre-engineered means having certified blue prints by a professional engineer in your state.

HENRY BUILDING SYSTEMS, SIMPLY THE STRONGEST BUILDING AVAILABLE
